ADMINISTRATIVE POLICY

Retroactive Reallocation of Costs

Approval Authority: Vice Chancellor for Finance
Responsible Administrators: Controller
                       Director, Office of Contract & Grant Accounting
Responsible Office: Finance
Policy Contact: Director, Office of Contract & Grant Accounting
Senior Director, Purchasing & Payment Services

POLICY STATEMENT/REASON FOR POLICY

Vanderbilt expects that the resources with which it is entrusted are managed in a timely and responsible fashion, and in accordance with generally accepted accounting principles (GAAP) and the requirements of the various sources from which Vanderbilt receives funding, such as federal agencies and philanthropic donors.

It is expected that all funds – including grants, contracts, gifts, endowments, faculty fund awards, and CORES – are allocated correctly based on the personnel effort and non-personnel expenses attributed to the fund, and that retroactive reallocation of funds is minimized, in order to ensure efficient effective, and compliant administration. Vanderbilt follows a ‘first dollar’ principle; campus units are required to utilize funds in the following priority order – grants / contracts; gifts / endowments; operating dollars / cash; and debt.

This policy complements but does not supersede the University’s policy on Cost Transfers for Federally-Sponsored Awards.

THIS POLICY APPLIES TO

This policy applies to all Vanderbilt employees involved in the creation, processing, approval, and recording of prospective and retroactive costing activities, including designated human capital management (HCM) specialists, principal investigators (PIs), business unit/entity approvers, financial unit managers, grants managers, chief business officers (CBOs), deans, and central office staff in Payroll, Accounting, Payment Services, Development and Alumni Relations (DAR), and Office of Contract and Grant Accounting (OCGA).

All such individuals are expected to be familiar with this policy and its current associated procedures.

POLICY

A. While retroactive reallocations are to be minimized overall, it is recognized that occasional reallocations will be required. All retroactive cost reallocations must be accurately completed and submitted to the approving central office within 90 days of the original allocation, or within
the adjustment/correction period required by the funding agency, whichever is less. Retroactive allocations that are not completed within these deadlines will become the financial responsibility of the home financial unit, e.g. in the case of failing to assign an expense to a grant or contract within 90 days. Exceptions beyond the 90-day limit are rarely granted; any such an exception requires the approval of both the applicable Vice Chancellor and the University Controller.

B. Retro costing may not cross a fiscal year unless it pertains to an externally-sponsored award and meets one or more of the following criteria:

1. The grant / contract end date falls within Q4 of the fiscal year
2. The allowable window for reallocation, 90 days or as defined by the external funding agency, bridges the fiscal years
3. The expense is unallowable under the rules of the funding agency or other government regulation and must be reallocated

C. Expenditures against grants, contracts, CORES, and restricted gifts/endowments that have been determined to be unallowable must be corrected, regardless of when discovered. Corrections involving unallowable expenses do not require the Vice Chancellor/Controller exception.

D. Retro costing that does not impact donor-restricted gifts and endowments, grants / contracts, or CORES must meet a per-pay-period threshold dollar amount as established and articulated in the associated Procedures (see link below) and related policies/procedures.

DEFINITIONS

CORES – Shared resources within Vanderbilt University that charge for goods or services that directly support the research or academic mission of the University and recover costs through charges to internal or external users. Access to instruments, technologies, services, and expertise are offered to help avoid needless duplication of scientific resources across departments. Core facilities are primarily laboratory-based, but also include shared research resources involving non-laboratory centers. Currently, both laboratory-based Core Facilities and other shared research resources are collectively referred to as CORES at Vanderbilt.

Retroactive cost reallocation (retro costing) - A transfer of revenue or expense previously recorded elsewhere on the University’s general ledger (GL), e.g. from one sponsored award to another, or from an area’s operations to an endowment or gift fund.

Unallowable Expense – Expense deemed unallowable by federal or sponsored rules and regulations, or donor gift agreement, or internal guidelines for donor-restricted gifts and endowments.

CONSEQUENCES OF NON-COMPLIANCE

Failure to comply with this policy may result in loss of role privileges and enterprise system access, and/or performance action, up to and including termination of employment.
